

Long Term Solutions

LONG TERM COMMITMENT. LONG TERM PEACE OF MIND.

Where to begin...

I run a growing business and then found myself caring for my elderly mother. I had no idea what I was heading into and soon became overwhelmed with all that had to be done within the context of a busy schedule. I felt like all I did was make phone calls and never accomplished anything.

Financially, my mother receives Social Security and a small pension. Private caregivers were expensive and we did not know about insurances. Then I heard about **CAREsolutions™** and its care coordination program. Finally I found someone who could help me sort all this out.

Now I can rely on someone that feels genuinely concerned for my mother's well-being. We reviewed all insurances, examined providers and we found a way to keep my mother at home.

My mother does not belong in a nursing home. Thank you for staying with me on this.

...Robert H Hartford, CT (son with own business)
